IDSES'19

INTERNATIONAL DATA SCIENCE & ENGINEERING SYMPOSIUM

2-3 MAY 2019

KARABÜK ÜNİVERSİTESİ 2007

CONTENT AND SCOPE

Objectives of IDSES'19;

- To emphasize the importance of data science and engineering
- To follow the developments in this field
- To provide and strengthen the interaction of the researchers with the experts in this field and to share the information

The target mass of the IDSES; academicians that are working in this field, data miners, data engineers and researchers studying on data science and engineering.

Content of IDSES'19

Papers and Posters Presentation

Participation Certificate and Symposium Bag

Safranbolu Sightseeing

Lunch and Dinner

Student Scholarship for Accommodation

SUBMISSIONS DUE

ABSTRACT : 1 APRIL 2019
FULL PAPER: 15 APRIL 2019
www.idses.org

Opening Ceremony
Safranbolu Fethi TOKER Faculty Of Fine Arts And Design
Prof. Dr. Sadettin ÖKTEN Conference Hall
Presentations
Prof. Dr. Fuat SEZGİN Safranbolu Academy of Sciences and Arts
(Stone Building)

KARABÜK UNIVERSITY

CONGRESS COORDINATION UNIT

SYMPOSIUM TOPICS LIST

Topics of interest include, but are not limited to:

- Data Science
- Data Mining and Knowledge Discovery
- Scientific Data Management
- Business Analytics
- Predictive Analytics
- Data Engineering
- Information Technology and Society
- Data Discovery
- Data Science for Modern Manufacturing
- Benchmarking, Performance Modelling
- Machine Learning and Deep Learning
- Artificial Intelligence
- Big Data Analytics and Metrics
- Cloud Computing
- Hadoop and Spark Performance for Enterprise
- High Performance Computing Methods
- Data Integration, Metadata Management and Interoperability
- Data Visualization and Interactive Data Exploration
- Information Extraction, Data Cleaning, Data Quality
- Database Privacy, Security and Trust
- Industrial and Engineering Applications
- Social Networks
